

Still Shining at 35: A Celebration and Remembrance

Victory Programs' Boston Living Center (BLC), located at 29 Stanhope Street in the Back Bay, is celebrating 35 years of dedicated service to the HIV/AIDS community. On the heels of World AIDS Day, we will gather on **Monday, December 2, 2024 at the BLC** with members, supporters, and community partners to celebrate this momentous occasion and to pay tribute to those living with and lost to HIV/AIDS.

A Still Shining at 35 sponsorship provides access to a robust Food Pantry and nutritious meals program five days a week to combat food insecurity and connect members to a supportive, accepting community.

The BLC remains New England's largest community and resource center for people living with HIV/AIDS where members also benefit from peer support, wellness programs, testing, and education services.

Sponsorship Levels
